

Calacatta Oro

Calacatta Oro is one of the best types of marble used in high end design. It is distinguished by white background and gold/brown veins.

Vein consistency and density, as well as the whiteness of the background vary depending on the grade or quality of the marble.

Stoneville has large stocks of Top Grade Calacatta Oro tiles and slabs in its Brentford warehouse. Tiles sizes in mm are 305x305 and 600x600.

Recent commercial projects include a fire surround for a hotel, a fire surround for a private apartment, as well as a reception desk and bar top for Harrods by Appointment:
